

## Academic honesty code

Academic honesty is of great importance at school and moreover for all academic work. The Ehrens värdska gymnasiet creates a reliable environment in this respect. Reliability means compliance with recognized regulations and the consistent application of sanctions in the event of non-compliance. The behaviour of both pupils and adults should be characterised by clarity and predictability.

As a student of the Ehrens värdska gymnasiet you are responsible for ensuring that all written work submitted by you is your own and that any ideas, theses and ideas not your own are correctly identified, using generally accepted citation rules. Any unidentified excerpts from the work of other persons, whether from classmates, the internet or other sources, are illegal.

Academic honesty is taken very seriously by the Ehrens värdska gymnasie. The school will sanction any kind of trespass accordingly.

We therefore ask you and your parents to read our Academic honesty policy and sign the following code:

1. As a student of the Ehrens värdska gymnasiet, I undertake to ensure that all submitted written work is written by myself without outside help.
2. I hereby confirm that all ideas and thoughts of other persons used in my texts will be marked according to the usual citation rules.
3. I will not pass on my own work to other students so that they can hand in my work as theirs.
4. I will not attempt to deceive during an exam. In the event of being caught, I will bear all the consequences.
5. I have taken note of the rules on appropriate academic citation (i.e. Harvard referencing).

Student signature:	Date:
I agree with the above terms and conditions.	
Parent's signature:	Date:
